Election/Restrictions

Applicant's election with traverse of Group I, claims 1-39, in the reply filed on February 07, 2005 is acknowledged. The traversal is on the ground(s) that no reference is made to class or subclass in the restriction. This is not found persuasive because the species restriction is based on distinct species the different features of Group I drawn to methods of laser induced breakdown comprising depositing energy to extract electrons from a valence band, and Group II drawn to methods of generating at least one pulse of femtosecond duration or less in the presence of an entraining fluid, and Group III drawn to methods of generating a pulsed laser and providing damage with less than 10% variation of a dimension of features. Applicant has not submitted evidence showing the species to be obvious variants nor has applicant clearly admitted on the record that this is the case. The requirement is still deemed proper and is therefore made FINAL.

This application is in condition for allowance except for the presence of claims 40-70 drawn to inventions non-elected with traverse in the reply filed on February 07, 2005. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
